About PANDORA

Pandora consulting is a Tunisian Research and Training Center specialized in Governance,
Public Policies and Human Rights in North Africa.

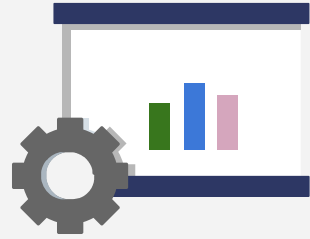

Pandora is committed to accompany the sustainable building of democracy in North Africa and in particular in Tunisia.

Our mission is to engage various stakeholders, from Governmental Institutions to International Organisations and Civil Society Actors in this process through providing them with solutions, adapted policies and sustainable actions.

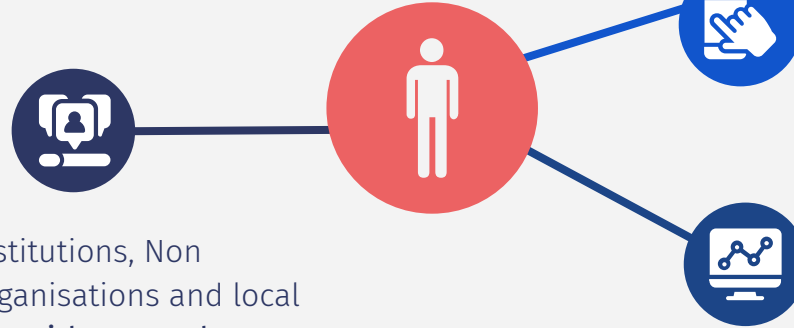

At Pandora, we bring the very best methodologies and tools to develop effective and objective solutions to issues related to Governance, Public Policies and Human Rights. We give a particular interest to the major ongoing or necessary reforms for the advancement of the democracy in North Africa.

Pandora started as an initiative of young experts aiming at supporting democratic building processes in very complex environments through a combination of top-down and bottom up methods.

Pandora's team is committed to innovate in terms of approaches and mechanisms and guarantees the inclusion of the targeted groups in the different phases of each project.

PANDORA'S GOALS :

Provide Public Institutions, Non Governmental Organisations and local civil society actors **with researches focusing on major reforms to enlight decision making processes.**

Support these institutions to set up mechanisms to foster their activities and better achieve their goals. At Pandora, we commit to deliver high quality, ethical and objective content. These values, are at the center of our organisation and a pillar of its reputation.

The formulation of these standards came from in depth discussions within Pandora's team and in close coordination with Partners from the early steps of our official creation in 2016.

Engaging our potential in the process of defining our **quality standards** is way for Pandora to emphasise **its commitment to high quality and ethical work.**

PANDORA'S FOUNDERS COMBINE EXPERTISE ON TWO LEVELS :

On the academic level :

An interdisciplinary team that combines and crosses different specialities : International law and conflict management in the post-conflict country, public law (State and Citizens dynamics) and management (resources, optimization, team management, conflict management, knowledge of civil society).

On the professional level :

Production of studies, reports, guides and booklets. Besides, the workshop facilitation, including the facilitation of dialogue between various stakeholders.
